

PRILEP FALLS; BULGARS ARE STILL RUNNING

ROLPH AND HENRY BOTH OUT; BELL TO RUN AS WET

Supreme Court Decides Primary Result is "No Nomination" for Democrats

SAN FRANCISCO. Sept. 24.—Applications for writs of mandamus for Mayor James Rolph and Francis J. Henry to compel the placing of their names on the ballot as Democratic candidates for governor were dismissed by the supreme court here today.

The decision upheld the constitutionality of the state primary law in all particulars.

The court said "there was no reason to change the law which is part of the constitution."

In view of the shortness of the campaign, the court directed attention to the possibility of independent candidates being nominated by petition before September 26.

The decision eliminated Mayor James Rolph of San Francisco and Francis J. Henry of Santa Monica as candidates for governor. The decision was given in a consolidated case, originally filed as separate applications and with the Democratic state central committee as intervenor.

The two cases were those of Frank N. Rodgers, candidate for assemblyman, who won the Democratic nomination but failed to get that of the Republican party, with which he was affiliated, this being identical with Rolph's situation, his attorneys used it as a test case, inasmuch as the original case on Rodgers' vote was decided in his favor.

Henry said the result of the decision, in effect, was the re-election of Governor William D. Stephens at the primaries. He said it was obvious the primary law should be amended so as to prevent any person from becoming a candidate of more than one political party and to fix a "reasonable and proper limitation" on the expenditure of money by or on behalf of candidates in primary campaigns.

To Fight Dry Law

SAN FRANCISCO. Sept. 24.—Theodore A. Bell, local attorney, former congressman and twice candidate for governor on the Democratic ticket, in a statement issued tonight announced he was prepared immediately to begin obtaining the necessary signatures to petitions naming him as an independent candidate for governor at November election, who opposition to the "dry" law in California as the principal plank in his platform.

"I am radically opposed to the adoption of the initiative measure that will put California bone dry on the first day of next January," the statement said.

The statute books of California, according to Bell, contain the will local option law which, he said, he believed permits every community to determine for itself whether or not license may be issued for the retail distribution of liquor.

ROBERT GODWIN IS KILLED IN FRANCE

Letter From H. P. Robinson, Son, Since Also Lost in Battle, Informs Brother

Through a letter received here yesterday from H. P. Robinson, who was himself killed in battle in Picardy a few days afterward, relatives of Robert Godwin learn of his death at Fresno, near Antibes, France, on the 19th of last month.

Young Godwin is well known in and near Fresno, having lived here for nearly eight years, a large part of the time being associated with his brother, John Godwin, at Waukegan. He was born in England, about twenty-eight years ago, and came to France in 1910. Last December he joined the Canadian service at the same time as his friend Robinson, whose death occurred so soon after his own. The end came in the fierce fighting under General Haig which thrust the Huns back beyond the Hindenburg line in Picardy.

Another brother is now fighting with the British in France. Godwin's mother is living in England, where most of his relatives reside.

Memorial service is to be held for young Godwin at St. James' Episcopal church, this city, by Dean G. R. F. MacDonald, 10 o'clock next Saturday morning. All friends are invited to be present.

WORKERS TO HAVE VOICE IN BUSINESS

Revolutionary Step Being Taken by Midvale Steel Company

SAN FRANCISCO. Sept. 24.—Mayor James Rolph, who, with Francis J. Henry, was denied a place on the November ballot as Democratic candidates for governor by a decision rendered to-day by the supreme court, issued a statement tonight asserting that the "chaotic situation" created by the decision demonstrated the necessity of an immediate revision of the state primary election legislation.

"The people of California, as they have shown time and again by their votes," the statement continued, "are essentially non-partisan in their attitude towards candidates for state offices. Election of state offices should be non-partisan, like the election of judges of the supreme court, and of county and municipal officials."

Although a registered Republican, according to Mayor Rolph, he sought the nomination of both the Republican and Democratic parties because the direct primary law, he said, "permitted and encouraged him to do so." He said he was the majority candidate in fact, if not in law.

"Really Non-partisan"

JAMES ROLPH

SAN FRANCISCO. Sept. 24.—Mayor James Rolph, who, with Francis J. Henry, was denied a place on the November ballot as Democratic candidates for governor by a decision rendered to-day by the supreme court, issued a statement tonight asserting that the "chaotic situation" created by the decision demonstrated the necessity of an immediate revision of the state primary election legislation.

"The people of California, as they have shown time and again by their votes," the statement continued, "are essentially non-partisan in their attitude towards candidates for state offices. Although a registered Republican, according to Mayor Rolph, he sought the nomination of both the Republican and Democratic parties because the direct primary law, he said, "permitted and encouraged him to do so." He said he was the majority candidate in fact, if not in law.

"Regretful, But Cheerful"

FRANCIS J. HENRY

LOS ANGELES. Sept. 24.—"I regretfully but cheerfully bow to the decision of the supreme court and extend my sincere thanks and regret to the many sincere and good friends of the more than sixty thousand Democrats who voted for me at the primaries and for no fault of their own have been deprived by a climactically worded law from having any opportunity to vote for me.

London, Sept. 24.—Thirty-one persons were killed when an express train from Berlin to Vienna collided with another train at the Dresden station, says an Exchange Telegraph dispatch. The condition of Archbishop Ireland at this time is worse than at any previous time. The pulse is barely perceptible and consciousness has been lost during the past twelve hours.

ANTI-BOLSHEVIK ELEMENTS MEET AT UFA

Pan-Russian Constituent Assembly Revived by Republican Leaders

LENINITES FIGHT AND RUN AWAY

Allies Slowly Move South in Campaign From Archangel

PARIS, Sept. 24.—(Havas)—A conference attended by many members of the Pan-Russian constituent assembly and presided over by the Socialist revolutionary leader Askenasyoff, former minister of agriculture and of the interior in the Russian provisional cabinet, is being held at Ufa, European Russia, according to a dispatch from Vladivostok.

The conference was organized and supported by President Melskov of the National Czech council. The object of the meeting is to form in Russia a slight government with the controlling power vested in the constituent assembly. Bolsheviks and members of the Social Revolutionary left party will not be represented.

Kill Many Bolsheviks

—(By the Associated Press)—In an attack against the American outpost south of Archangel yesterday the Bolsheviks sustained considerable losses.

Eight dead were found in one hour and three other bodies were found in a great forest. Most of the Bolsheviks dead were Letts.

A wounded Bolshevik soldier declared a shell from a Russo-American armored train killed 20 men on a Bolshevik train.

The Bolsheviks artillery bombed the American positions with shrapnel to-day but did no harm.

The fighting in this area is a combination of trench-and-Indian warfare. The trenches are along the railroad but in the forests, hemming the tracks. Trees are the only cover.

Russian railway employees are loyal to the Allies. They are operating trains under shrapnel fire and even repair tracks in the open unperturbed by bursting shells.

New Governor

—(By the Associated Press)—Colonel Boris Androvitch Duroff today became governor of the region of the north, succeeding the Tschapkovsk government. The new governor general is responsible to the new central government formed at Samara and which is under the leadership of General Alexeif, former Russian commander-in-chief; M. Askenasyoff, minister of agriculture in the Kerensky cabinet, and M. Serepanoff.

The Austro-Hungarian army holds large tracts of Italian territory and bravely maintains its position. In France our troops repel attacks by the French, English and Americans, who are supported by every kind of modern instrument of warfare.

The events of the last few days have proved the old spirit is alive in our troops. The fatherland's true sons are intrepidly preventing the enemy's attempt to break through.

Must Keep Confidence.

"Shall we then lose courage and forget what previously happened?" Shall we refuse the old absolute confidence in the men who hitherto have led us to victory because of vicissitudes incident to all wars?" No, gentlemen, that would be unmanly timidity and base ingratitude.

Expressing confidence in Field Marshal Von Hindenburg and General Ludendorff, the Imperial Chancellor said they could be equal to the situation, the Allies' "premature" declaration of victory will soon die away.

"Certainly the same enthusiasm which characterized August, 1914, (Continued on Page 2.)

3000 NEW CASES

GRIPPE IN CAMPS

—(NEW YORK, Sept. 24.—Nearly 3,000 new cases of Spanish influenza in army camps have been reported to the office of the surgeon general of the army today, increasing the total number of cases to nearly 22,000. Deaths reported were 112, due chiefly to pneumonia, which followed influenza. The total of pneumonia cases was 3,900 for all camps.)

The total number of cases at Camp Devens is now placed at 16,539. Patients have been sent to Camp Devens to study conditions there in an effort to combat the disease.

CAMP MEADE, Md., Sept. 24.—The authorities admitted today that there were 500 cases of influenza in this camp.

Memorial service is to be held for young Godwin at St. James' Episcopal church, this city, by Dean G. R. F. MacDonald, 10 o'clock next Saturday morning. All friends are invited to be present.

"As to the office of governor there was no nomination made by the Democratic party at the primary election," the court held.

"The decision is exactly what I anticipated," said Theodore A. Bell, San Francisco attorney, who is circulating petitions to secure the nomination as an independent candidate. "I am in the fight to stay to the finish."

Bell announced that he will try to secure the endorsement of the non-Democratic state central committee when it meets in this city Saturday.

His petition of nomination will be in the hands of the secretary of state some time before October 1, the last day for filing such petitions, he said. He will require 10,550 names on these petitions to qualify.

Bell would give no indication of his platform other than he would oppose platform other than he would oppose national and state home-front prohibitions.

NEW PRESIDENT MAY BRING PEACE

Hsu Shih-Ching Has Program to a Reunited China

WASHINGTON, Sept. 24.—Hope now is felt here that the settlement of the civil strife which has paralyzed the commercial development of China may follow quickly the conclusion of the nearly elected president, Hsu Shih Ching, October 10. From the united China which then would arise would come a considerable addition to the military strength of the Allies.

Hsu Shih Ching has laid down six principles which will constitute his platform. These have been communicated to officials in Washington. His program includes:

First.—To bring about a consolidation of the present opposing factions by peaceful means.

Second.—The prompt adoption of a permanent constitution on a truly republican basis.

Third.—The termination of all internal disturbances and strife.

Fourth.—The reduction of military expenditures, reorganization of the army without discrimination between the north and the south, thus reliving the country from the heavy burdens it has been bearing on that account.

Fifth.—Promotion of the economic welfare of the people, and.

Sixth.—Development of Chinese trade through the cooperation of America, England and Japan.

Hsu Shih Ching is about 62 years of age and a civilian. He is said to be acceptable to both of the military factions which now rule north and south China.

REBEL YELL GIVEN FOR SERVICE FLAG

TULSA, Okla., Sept. 24.—The rebel yell, from many thousand throats was the culminating manifestation tonight of a great surge of patriotism which followed the presentation to the United Confederate Veterans and to the Sons of Veterans of a gigantic service flag.

The flag contains 167,000 stars, each representing a direct descendant of a Confederate soldier who is now offering his life for his country in the war for world liberty, and was presented by the Colorado delegation.

More than 500 veterans dined at the big mess tent specially maintained for them. The local committee estimated that about 10,000 veterans already were in attendance with a correspondingly large number of Sons of Veterans and other official guests.

Welcome was extended to the visitors by Governor R. L. Williams of Oklahoma, to which a response was made by Lieutenant-Governor James Fullman of Colorado.

TWO AVIATORS BAG 65 HUN SOLDIERS

LONDON, Sept. 24.—Two British aviators, flying low in one machine, brought about the surrender of sixty-five Germans, and without leaving their plane, shepherded the party across No Man's Land to the British lines, according to a tale from the battle field today.

The pilot and his observer had been attacked from the trench and sunken road. The pilot dived and repelled to the enemy fire with his machine gun, killing one and wounding three. The Germans in the panic ceased firing and hoisted a white handkerchief.

As there were no British infantry in that neighborhood the pilot descended to within fifty feet of the ground and ordered the Germans out of their trenches, circling around them to insure that none escaped. All were safely handed over to the British troops.

IRON WORKERS UPHOLD WILSON

DALLAS, Tex., Sept. 24.—Resolutions assuring President Wilson of their hearty moral and financial support in the present great conflict were adopted today at the closing session of the International Iron Workers' Union.

The matter of allowing negro iron workers to organize and then be taken in under the jurisdiction of the international body was defeated.

Cleveland was selected as the next meeting place and the following officers were elected:

President, P. J. Morris, St. Louis; first vice president, J. A. Johnston, Newark, N. J.; second vice president, W. J. McCann, Kansas City; third vice president, Ben Coopner, Portland; fourth vice president, J. R. Mc Cullen, Chicago; fifth vice president, D. J. O'Shea, Niagara Falls, N. Y.; sixth vice president, Thomas Sachill, San Francisco.

THIRTEEN SHIPS IN LAST WEEK

WASHINGTON, Sept. 24.—Thirteen ships of all types of 55,000 tons deadweight were completed and delivered to the Emergency Fleet corporation during the week ending September 20. Pictures made public today show there were six steel ships of 31,400 tons capacity and seven wood and composite ships aggregating 24,600 deadweight tons.

Launchings during the week numbered 17 of a deadweight tonnage of 72,700. Among these were 11 steel ships of 50,500 deadweight tons and six wood and composite ships of 22,200 tons.

The lakes districts made the best record, delivering five and launching six steel ships. The Pacific coast delivered one and launched two while the Atlantic coast launched three.

AMSTERDAM, Sept. 24.—Forty-seven air raids were made on German towns during the month of August, according to an official statement issued at Berlin. This statement says that seventy-nine persons were killed and 113 injured during the raids.

SAN FRANCISCO, Sept. 24.—The Pacific division of the American Red Cross has been assigned a quota of 10,000 pieces in a national drive to obtain towels, handkerchiefs, napkins and sheets for French hospitals. It was announced here tonight. These articles, according to the announcement, are needed imperatively.

WASHINGTON, Sept. 24.—Identical German women may not enter or live in zones within one-half mile of camps or other prohibited military institutions after midnight, October 6, Attorney General Oregon announced today.

SPEAKS WELL FOR PLANES SHIPMENTS

WASHINGTON, Sept. 24.—Describing his recent visit to the western front, Senator Thompson of Kansas, Democrat, told the Senate today that the general opinion abroad is that another year will be required to bring Germany to her knees. America, he declared, had "put pep into the war" and started the "ball rolling towards Berlin."

Despite the criticism in this country of the aircraft program, he said planes are now arriving in France "as rapidly as they can be taken care of." He branded as false statements made in the Senate some time ago that in July only one battle plane equipped with a Liberty motor was in France.

"The truth is," he declared, "delivery of these planes was not expected earlier than July 1, while as a matter of fact the first Liberty motor plane arrived, was set up complete and christened on July 18 last, and they have been arriving since then in rates of from 10 to 12 a day and since."

The first five planes equipped with Liberty motors had the misfortune, he said, to land behind the German lines. He pronounced the Liberty motor as "the best motor in existence" and worth whatever loss had been caused by delay in perfecting it.

GET ONLY HALF OF QUARTER MILLION

SAN FRANCISCO, Sept. 24.—Heart of the late Mrs. Lydia Watts of Olson Butte county, lost their right to retain all of her \$250,000 estate, when the state supreme court decided today that heirs of her pre-deceased husband Nelson Watts were entitled to a half share.

Mrs. Watts died about two years ago leaving a will in which she said her property should go "to her heirs." A half share of her relatives appeared and secured a judgment in their favor in the lower court. The plaintifff relatives of Nelson Watts appealed and won out in today's decision.

LIGHTLESS NIGHTS MUST CONTINUE

SAN FRANCISCO, Sept. 24.—Because the hydro-electric situation is still critical as the result of deficient rainfall, lightless nights in California are to continue indefinitely. H. G. Butler, state power administrator, announced here today:

The order will be modified as soon as there is abundant rainfall, but will not be made more severe if present conditions continue, Butler said. Recent rains have considerably relieved load off the power companies by reducing irrigation requirements, but they have not been heavy enough to affect the critical water storage situation, Butler said.

MASS OF WATER WASHES OUT ROAD

SAN DIEGO, Sept. 24.—More than three miles of track of the San Diego and Arizona Railroad near the western edge of Imperial valley, including that part lying between the Carrizo gorge and Coyote Wells, was washed out by a cloud burst Saturday night, according to reports reaching this city today. The flood waters completely isolated Coyote Wells, flooding all buildings in that vicinity.

A mass of water over ten feet high rushed down the highway destroying a large portion of the mountain Spring road, more than a mile of the road being left under water. A number of automobiles were mired or stalled.

The washed out portions of the rail road will be replaced immediately, according to D. W. Pontius, general manager of the road. The highway, it is expected, will be open for traffic today, although several weeks will be required to completely restore it.

NO CHANGE MADE IN REVENUE BILL

WASHINGTON, Sept. 24.—In beginning revision of the public \$8,000,000 war revenue bill today, the Senate finance committee virtually decided to make no substantial reduction in the aggregate tax levy proposed.

Among members of the committee, Chairman Simmons said there was little opposition to the plan to raise by taxation one-third of the \$24,000,000,000 it is estimated the government will need this fiscal year. Increased estimated expenditures for the army, Senator Simmons said, have caused abandonment of most of the sentiment against such a large tax levy.

Whether there are increased sources of taxation will be provided to meet the prospective revenue deficit due to prohibition legislation has not been decided, Chairman Simmons said. If necessary, the committee, he stated, is ready to fill the gap.

SAY NO NEED TO FIX COTTON PRICE

WASHINGTON, Sept. 24.—Hope that operation of the cotton distributing committee in purchasing at prices to be approved by the president, all cotton needed by the government and the Allies will so stabilize the cotton industry that general price fixing will not be necessary, was expressed today by Chairman Page of the special committee to investigate the cotton situation. "There is no price fix," Page's committee said in its first day's work today.

Protests against the government fixing the basic prices for cotton marked the beginning of the deliberations of the committee. A delegation from the cotton states advisory marketing committee, appeared before the body late today after conferring at the capitol with Senator Smith of South Carolina and other senators from the cotton growing states who have been active in opposing price fixing.

WASHINGTON, Sept. 24.—Unjustified German women may not enter or live in zones within one-half mile of camps or other prohibited military institutions after midnight, October 6, Attorney General Oregon announced today.

Miss Maud Woodworth Tireless War Worker

Western Newsman Photo.

MISS MAUD WOODWORTH, daughter of the late Col. Frank Woodworth, U. S. Army, now living at Grove Lodge, Bracknell, England. She has been associated with the Dutchess de Vendome in Belgian refugee work and Eagle Hut arrangements, together with numerous other war activities.

JUSSERAND HANDS OVER FRENCH GIFT

WASHINGTON, Sept. 24.—Ambassador Jussierand, of France, in present to the Senate today on behalf of his government, two handsome vases in "recognition of the reception" by that body of former Premier Viviani and Marshal Joffre when they came to welcome America to the ranks of the defenders of liberty, said the said nations' efforts fighting Germany now feel that they are moving toward the evening of "der tag" when Germany's power for evil may have been crushed.

Although now "bubbling of peace," the enemy, the ambassador said, understands no argument except that of force, and the Allies and their associates mean to "use no other."

In accepting the vases for the Senate, Vice President Marshall assured Ambassador Jussierand of the devotion of America to France and of its determination to fight on with the French until "justice wiped away all their tears and fears and avenges though it cannot obliterate all the scars of their wrongs."

Ambassador Jussierand appeared before the Senate by special invitation of that body, which had set aside time for the presentation. The vases came from the national pottery at Sèvres, near Paris, and stand about six feet high.

Similar vases also have been given by France to the House and a day soon will be set aside for their formal acceptance.

Ambassador Jussierand told the Senate that in planning the war the Germans forgot one imponderable item—sentiment, the force behind the guns that will win the day for justice and liberty. They also, the ambassador said, had concluded that when they struck, Belgium would be found benumbed with fright, France in decay, England in indifference, and America in business.

"The answer," said Mr. Jussierand, "was Flanders, Marne, Ypres and St. Mihiel."

"We are at one of the grandest periods in the history of the world," continued the ambassador.

"The witness never to be seen again, not only scenes of horror, but scenes of splendor. To those latter scenes, American contribution is one of which you and your descendants may well be proud forever. Seeking to use the terms of your President, no conquest, no dominion, no indemnities, no material compensation, acting as one of the champions of the rights of mankind, your nation has stood the severest test and offered an admirable example."

THE WORLD WAR

Victory of Piave

PARIS, Sept. 24.—How the Austrian offensive along the Piave river was stopped was described today by the duke of Aosta, commander of the Third Italian army, in an interview with the foreign editor of the *Mattin*. He said:

"We had to deal with an enemy who had prepared everything minutely but who was forward, and I did not have to fight his battles. I wanted him my batteries to be set aside for the frontal attack."

"The next day I viewed the battlefield. God knows I saw massacres during the three years I fought on the terrible Carso plateau, but my eyes never before gazed on such a spectacle."

Discussing the war situation as a whole, the duke said: "The allied troops are doing fine, and with admiration and wonder. I freely admit that I never believed before next Spring that it could be launched this year in the middle of the Ombrone river southward. Good progress was made all along this front. About 800 prisoners were taken."

The witness further testified that he had overheard Goulet tell Rosenfeld that a new type of uniform raincoat ordered by General Pershing would yield a greater profit because, instead of 25-inch cloth being used, it would be made from 22-inch material.

"A successful operation was carried out this morning in cooperation with the French in the St. Quentin sector. At dawn, English troops attacked over a front of four miles from the neighborhood of the Ombrone river southward. Good progress was made all along this front. About 800 prisoners were taken."

"Vigorous resistance was encountered at number of points, especially in the neighborhood of St. Quentin, where the fighting is still continuing."

"There was local fighting again today northeast of St. Quentin, as a result of which we improved our positions. On the main front there is nothing to report."

"But let us leave politics. I am a soldier and that is all I want to be," the duke said.

"There are men who know that and return it in devotion and affection. Go and see them. You will behold heroes—those who have repelled the enemy—those of Venice who have occupied the delta of the Piave. They live, sleep, eat and fight under such conditions that one must bow before them. Thanks to them, Venice breathes freely, awaiting the day of revenge."

On Ombrone River

LONDON, Sept. 24.—In the region west of St. Quentin, the British troops have carried out a successful operation over a front of four miles from the Ombrone river south and taken about 800 prisoners, according to Field Marshal Haig's communiqué last night.

VON HERTLING ADMITS WAR IN BAD WAY

(Continued from Page 1.)
could not last, but the firm resolve to hold out until the end will, despite all oscillations and oscillations, continue. The people at home will not leave the army in the lurch just when everything is at stake. From the first day we waged the war as a war of defense; only to defend ourselves did we invade Belgium."

Did Violate Law.

In vigorously defending Germany's action toward Belgium, the imperial chancellor admitted that in invading Belgium, Germany transgressed the written law, but he said:

"As for individuals, so is there also for states, another law. That is the law of self defense."

He repeated the German contention that there were grounds for the fear that the enemy would invade Belgium and referred to alleged proofs from Belgian archives of Belgium's dubious neutrality. He also alluded to offers of peace to Belgium before the invasion and again after the capture of Liege, which Belgium refused to entertain.

In all future fighting, both on the west and the east, the imperial chancellor said, it would be solely a question of defense.

Sees U. S. Intrigue

AMSTERDAM, Sept. 24.—The local Anzeiger of Berlin makes the discovery that the "Proude of the left," as it calls the adherents of the demand for the parliamentarization and democratization of the German government, originates abroad and is under direct American influence.

At The Hague, it says, there exists a German defeatist center whose members seem to have free access to the German legation, where Foreign Secretary Hintze is not held in high esteem. Among those defeatists, it declared, American elements apparently have succeeded in establishing the conviction that President Wilson's motives are pure and that he has the real welfare of the German nation at heart.

The local Anzeiger voices its suspicion, however, that the American fighting men on the western front gives a better clue to America's intention toward Germany than those political "backsliders" whose activities nevertheless seem to have President Wilson's blessing."

Alarming Superiority

LONDON, Sept. 24.—(British wireless service).—Entente Allies successes in France, Macedonia and Palestine have led the Cologne Gazette to anxious consternation—regarding future military developments.

"We must do justice to say he is apparently beginning to obtain big successes there, which he has not obtained in France," says this leading German newspaper, and it concedes that the prosecution from all sides of an offensive against the alliance of the Central Powers would be a master stroke. Having mentioned the superiority of the Allies in men and material, it continues:

"We have already pointed out the enviable secrecy observed in the manufacture of armored tanks and the training of their crews, which now number not thousands, but tens of thousands. To these must be added the increase in the number of gunners, mortars, machine guns and for ammunition, and airplanes of all kinds. German industry is unable to accomplish this in similar quantities."

Only Big Words

LONDON, Sept. 24.—In an address to the Australian officers at Brey, near Metz yesterday, Emperor William recalled to them that they had before them on this front the Americans, who have "promised France to give her Alsace-Lorraine" and who wished, he said, "to add the deeds to their words." The emperor assured the Australians of his confidence that with the help of our German forces the Americans would be given the right answer at the right moment."

NAME MORE ARMY MEN IN SCANDAL

NEW YORK, Sept. 24.—Two more army officers were named today at the trial in the federal court of Felix Gouled, promoter, and David L. Poddell, lawyer, in connection with Captain Aubrey W. Vaughan, U. S. A., on a charge of conspiracy to defraud the government in connection with army raincoat contracts.

Daniel Davidson, a special agent of the department of justice, testified that while hidden in a secreted room

W. S. S. CAMPAIGN BEGUN IN SCHOOLS BY SUPT. CROSS

Children Who Can't Buy
Liberty Bonds to Be
Asked to Buy W. S. S.

Plan Will Give Little Tots
Chance to Do Share
in Loan Drive

All the children in the public schools will have a drive of their own during the Liberty Loan drive—a drive for "Baby bonds" and Thrift Stamps. And so, while mother and dad are doing their part by subscribing to the Fourth Liberty Loan, the children can partake in the big drive by saving their pennies and buying Thrift Stamps that will grow into War Savings Stamps and bring them interest while they are helping Uncle Sam back the Homefront.

"This drive will be in no way conflict with the Liberty Loan campaign," declared Supt. Cross. "It will not be carried into the high school because the high school pupils are preparing to buy Liberty bonds. But the children of the primary and grammar grades will not buy Liberty bonds and yet each child will want to feel that he is doing something while the big drive is being carried on. He can save his pennies and do just as much in proportion to his size and earning power as his parents."

"Furthermore, the drive in the schools will have a tremendous effect on the success of the Liberty Loan drive. Children will go home and tell their parents all about the drive. The work done by the Thrift Stamp drives last spring to teach the children to be thrifty was of inestimable value. The children urged their parents to be thrifty and thrifty, patriotic parents urged their children to save. It worked both ways and no other campaign has had as great an educational value as the W. S. S. drives."

SALVAGE SHOP CLEAR'S \$166.60

It was a most exciting day at the Red Cross Salvage Shop yesterday, when the Fresno Elks Club lodge, between 14 and 17 years of age, with 25 years as their limit, were admitted.

Both courses are five nights a week from 7 until 9 o'clock.

FEEHAN PLACED UNDER BIG BOND

Robert Fehan, the last of the 1, W. W. Wilson, was arrested by Deputy U. S. Marshal Shandron under the Sacramento indictment, charging complicity with numerous fires in various parts of the valley, was arraigned yesterday. U. S. Commissioner R. E. Rollins yesterday and placed under \$16,600 bond under order of remand to the eastern city.

Deputy Shandron, arrested by Shandron last Sunday on a charge of furnishing liquor to Indians, was arraigned and bond fixed at \$500.

ZELDA DISTRICT TRUSTEES MEET

Only twelve delinquents out of a total of 64 assessment payers were reported at a meeting of the board of trustees of the Zelda reclamation district held in the office of the source, L. M. Postwick, the Griffith-McKenzie building yesterday. The board authorized the sale of the property of the delinquent payers in accordance with the law, which provides that the board shall meet and arrange for publication of sale of delinquent property.

The present assessment is the first call on the second assessment. Postwick stated that the penalty for delinquency is a charge of 10 per cent in addition to the call, and the delinquent is charged the full amount of the assessment. The total assessment for the district is \$10,000, and the amount raised in the present call is a little over \$9,000.

ALLEGED ROBBER BOUND OVER

Franzisco Perez, arrested near the subway Saturday night on the charge of having stabbed Manuel P. Machado, was placed under \$1,000 bond by Judge Briggs yesterday and bound over to the superior court.

It is alleged to have cut Machado about the face and arm in an attempt at robbery.

HAWTHORNE NIGHT SCHOOL OPENED

With an enrollment of twenty-two, R. F. Springer has opened the educational night school including the citizenship classes at Hawthorne. The large enrollment than on the corresponding day last year. The school is held five nights a week from 7 until 9 o'clock. The course offers instruction in the sixth, seventh and eighth grades, with a class for foreigners from the first grade up.

Graduates from the citizenship classes are admitted to citizenship with little examination.

-from Childhood to Old Age

This steadily progressing State-wide institution has complete facilities for serving from early youth to late manhood. The School Savings Department is teaching thousands of children to save and become thrifty citizens. Two of our branches in one city have combined school savings deposits, totaling almost half a million dollars.

Our Commercial and Savings departments adequately meet the demands of the business man or woman—and our Trust Department is equipped to render fiduciary service of the highest character.

That thousands of California families are profitably using our service is evidenced by the fact that we have nearly 150,000 depositors.

CONTINUE RADIO CLASS AT SCHOOL USE OF NICKEL IS ENHANCED BY WAR NEEDS

Most of Supply Has Been
Imported From Can-
ada in Recent Years

Ore Is Scarce in Calif-
ornia; San Diego County
Has Only Supply

BY FLETCHER HAMILTON:
State Mineralogist.

SAN FRANCISCO, Sept. 24.—An import brought here by John W. Kelly and W. H. Williams of the Bordenized who have just returned from Baja California, indicates that Los Angeles county may become one of the largest producers of chrome, or chromite ore, in the state.

When the interior department sent an 800-ton car for chrome on May 10, it was learned that in 1917, when the proportion of nickel content in the United States supply for many years having come from Canada in the form of a rich copper-nickel matte, from which the refined nickel is produced. The increased demand for this metal, due to its use in the manufacture of nickel steel, alloys and small coins, has been easily supplied by Canada, for in the past more was received than was required for domestic use the balance was exported.

The proportion of nickel content from domestic copper ores in the electrolytic refining process is undeter-
mined, but it is known to be small.

The price of nickel for the last seven years has remained quite steady, ranging from 35 to 50 cents per pound. In 1917 the average price was 40 cents per pound.

Application and Uses.

The most important use for nickel is in the manufacture of nickel steel. This contains about 3.5 per cent nickel and is used for armor plate and machine requiring great strength. For many years nickel has been used as one ingredient of small coins. One cent piece contains about 12 per cent of this metal and the 5 cent piece about 25 per cent. It is used in plating other metals and alloys, such as iron, zinc and brass, by electrolysis. Much ornamental work and many household articles are nickel-plated. Nickel "nickeloid" is nickel-plated sheet zinc. Reflectors and refrigerator linings are often made of nickel.

Nickel and Ores.

Millrite (nickel sulphide) contains 44.1 per cent nickel and 23.6 per cent sulphur. A valuable ore of nickel, brass yellow to brown in color often with iridescent tarnish, greenish black streak and brass, by electrolysis. Much ornamental work and many household articles are nickel-plated.

Pyrrhotite.

Pyrrhotite (Fe7S8) iron sulphide, theoretically containing 85.5 per cent iron and 48.8 per cent sulphur, but it is often a valuable ore of nickel, sometimes containing 8 to 5 per cent or more of this metal. Color yellow, brown to copper red, dark grayish black streak, brittle, hardness 3.5-4.5, gravity 4.5, slightly magnetic, and tarnishes easily.

Nickelite (NiAs).

Nickelite (nickel arsenic) is called copper nickel on account of its color. Contains 44 per cent nickel and 30 per cent arsenic. Pale copper red in color, metallic luster, pale brownish red streak, brittle, hardness 5.0-5.5, gravity 7.3-7.7. Generally occurs in massive.

Occurrences.

Nickel-bearing pyrrhotite occurs in the Friday Copper mine in the Julian District, San Diego county. Some ore was mined in 1915 and 1916, but not yet treated. It is claimed that new discoveries have been made in this country and development started. Pyrrhotite has also been found in Siskiyou and Modoc counties.

Some millrite has been found in Calaveras, Humboldt, Napa, Placer and Plumas counties, but only in small quantities. It is often associated with copper and cobalt ores.

Tests.

Nickel is usually detected by the color of the pyrite to the borax test. In the oxidizing flame it gives a violet color when hot, changing to reddish brown when cold. Nickel compounds, when dissolved in nitric acid (HNO3) give an apple green solution and when ammonia is added a pale blue color results. Pyrrhotite when heated in the reducing flame of the blowpipe, is fused to a magnetic globule. Nickelite when intensely heated gives off arsenic fumes.

USE OF NICKEL IS ENHANCED BY WAR NEEDS

VOTES ON RECOUNT

An addition of three votes to the majority of Chris Jorgenson in the contest for supervisor of the First Supervisorial District was the result of the recount on the petition of E. E. Stater, the defeated candidate. The original votes cast were Jorgenson 1,295, and E. E. Stater 1,173, a majority of 32 for Jorgenson. The recount total was Jorgenson 1,186, two votes less than the original and Stater, 1,158, twelve votes less than the original. This gives Jorgenson a majority of 38 votes as compared with 32 on the original count.

The recount took two days and was completed late yesterday afternoon. Jorgenson is the present incumbent and is chairman of the board of supervisors.

FIND CHROME ORE NEAR LOS ANGELES

BAKERSFIELD, Sept. 24.—An import brought here by John W. Kelly and W. H. Williams of the Bordenized who have just returned from Baja California, indicates that Los Angeles county may become one of the largest producers of chrome, or chromite ore, in the state.

When the interior department sent an 800-ton car for chrome on May 10, it was learned that in 1917, when the proportion of nickel content in the United States supply for many years having come from Canada in the form of a rich copper-nickel matte, from which the refined nickel is produced. The increased demand for this metal, due to its use in the manufacture of nickel steel, alloys and small coins, has been easily supplied by Canada, for in the past more was received than was required for domestic use the balance was exported.

The proportion of nickel content from domestic copper ores in the electrolytic refining process is undeter-
mined, but it is known to be small.

The price of nickel for the last seven years has remained quite steady, ranging from 35 to 50 cents per pound. In 1917 the average price was 40 cents per pound.

Application and Uses.

The most important use for nickel is in the manufacture of nickel steel. This contains about 3.5 per cent nickel and is used for armor plate and machine requiring great strength. For many years nickel has been used as one ingredient of small coins. One cent piece contains about 12 per cent of this metal and the 5 cent piece about 25 per cent. Pyrrhotite when heated in the reducing flame of the blowpipe, is fused to a magnetic globule. Nickelite when intensely heated gives off arsenic fumes.

INQUEST FOR STRANGER.

The inquest of the unknown man found dead near Laton Monday, will be held at 9 o'clock today by Coroner Bean. The funeral took place yesterday. So far no clue as to his identity has been discovered.

**REPUBLICAN
SUBSCRIBERS
SHOULD PAY**

As announced before by this paper, the War Industries Board, a Federal Government department at Washington, D. C., has issued the following order to the newspaper publishers of this country:

"Discontinue sending paper after date of expiration of subscription unless the subscription is renewed and paid for."

This order is a part of the nationwide movement for conservation as a war measure. It was not initiated by the publishers but by the Government. It is an order to the publishers and none, we believe, has obeyed it. Every Republican subscriber who is in arrears on his subscription should pay up before October first, when this order goes into effect, and thereby make it unnecessary to have the order enforced against him.

Please do not wait for a collector to call.

Come to the Big Fresno District Fair, October 1st to 5th

"FASHION SHOW WEEK"

Besides Illustrating "What to Wear", Will Offer Many Suggestions Regarding the Many Advantages Presented by WONDER Specialized Service

Immensity of variety and extreme price moderation are advantages of as much consideration as correctness of fashion; and these two features of WONDER specialized fashion service are now to be emphasized.

A Special Showing

Serge Frocks at \$25

Including Several "Betty Wales" Smart Street Styles

An Enlarged Department Which Is now Replete With Fall Apparel

Very seldom, outside the largest cities, will one find opportunity to shop for girls among such large assortments as we have assembled for this fall and winter season.... A feature of importance is a line of "Flapper" dresses, designed especially for misses in sizes 14 and 16 only.

Gingham Dresses
1.98, 2.49, Up to 6.95
Coats 13.95 to 39.50

Women who attended the Fashion Show Monday were delighted with the chic styles shown for little girls—both coats and dresses. Another agreeable surprise awaits those interested when they are made aware of the very moderate prices at which these garments are marked.

CHESTER H. ROWELL, Editor and Manager

PRIMARY DECISION

The immediate political and personal significance of the decision of the supreme court in the gubernatorial nomination muddle is that it practically re-elects Stephens governor. The only two persons who, either by personal prestige or as the representatives of the Democratic voters, had any chance at all of making a serious contest, are now eliminated. Theodore Bell, backed by sponsors unknown, will run as an independent. He will make a vigorous campaign and, under the circumstances, a creditable run. But he will come nowhere in sight of election.

The ticket will read:

For governor:
WILLIAM D. STEPHENS, Republican, Progressive, Prohibitionist.

THEODORE BELL, Independent.

There will be no Democratic nominee.

Bell will get most of the Democratic Woolwine vote, part of the Democratic Henry vote, and a little of the Democratic Ralph vote. He will divert from Stephens probably none of the Republican or Progressive votes except some of the outright and aggressive "wets" and he will lose the straight "dry" on the Democratic side. He will get a fraction of the labor vote, but has no real hold on most of it. He will not appeal to the business men or the farmers generally. Barring some miracle of campaigning—and Bell has made good campaigns, but never miraculous ones—the sum of these votes is not enough to give even a fighting chance of success. It is all over but the counting. Stephens is elected.

On the much more important question of the primary itself, the supreme court has decided that the law means exactly what it says, and that it was within the power of the legislature to enact it. Ralph cannot be a candidate under the plain terms of the law. Under a former decision, the supreme court had held that the constitutional authorization to prescribe "tests" for "electors," "parties," and "organizations" included the authority to prescribe tests and conditions for candidates. That precedent is adhered to. Under it, the legislature had the power to prohibit the Democratic voters from nominating Ralph unless the Republican voters did so also, and the legislature had acted within that power in passing the present law.

Henry's claim to be the nominee of the primary is disposed of by the familiar rule of American law that where the majority candidate is ineligible the next-highest candidate acquires no rights, unless they are confirmed by statute.

Henry's claim to be the nominee of the Democratic committee, which named him to fill the vacancy, is disposed of by the clear language of the statute, which declares that a vacancy so created "shall not be filled." Since the purpose of the primary law is to make the nomination by the voters a provision preventing it from being made by others than the voters is clearly within the discretion of the legislature, and may be justified, since otherwise party organizations might conspire, as in the past some have, to ignore the primary, discourage or prevent nominations at it, and take the authority into their own hands. The legislature has, therefore, limited the vacancy-filling power of committees to the contingency of death, which can not be foreseen and is beyond the range of plotting. One gets, to be sure, a bit dizzy at a decision which deprives the voters of their choice on the argument of protecting them in their exclusive right of choice, but really the dizziness is in the law and not in the reasoning.

KEY OF PALESTINE

Frankly, we think the supreme court from its standpoint, did the wise and practical thing. To have put Ralph on the ballot would have been at the cost of overthrowing the authority of the legislature on a matter clearly within its power. To disempower the legislature for all time would be a greater evil than to sustain it in exercising its power in a way which worked injustice one time. Also to put Henry on the ballot, by committee act and court decree, when the voters had rejected him, would be not to sustain, but to deny the right of the Democratic party. That right is the right to the candidate of its choice; not the right to have imposed on it from outside a candidate not of its choice.

The court has done well to continue its policy of recent years, to sustain the primary law when possible. This law, to be sure, is, as we have already said, "an outrageous law." But the legislature made it outrageous and it is not the obligation of the court to cure it. The responsibility for bad laws, within its powers, is properly on the legislature. The cure in this case is not a court decision, but a new law. The injustice, for this year, is salutary. It demonstrates, by actual operation, how bad the law is. It deprives the Democratic party, as it was intended to do, of its right, to have a candidate. That wrong had to be committed, clearly and conspicuously, before it could be universally realized how great a wrong it is. Now that it has been done, it must be undone. That is for the next session of the legislature. We are sorry that the Republican nominees for the legislature, in convention, left the courage to make a promise to do it, and that the Demo-

cratic nominees were so stupid as to promise to do it wrong. But perhaps both courage and intelligence will return after election. Anyhow, it must be done.

Menning, Stephens is elected.

CONTENTING LABOR

The proposal made by directors of the Midvale Steel and Ordnance company—that its employees shall have representation in the conduct of the business in all matters that concern the nature of their employment—may appear now to be revolutionary in the conduct of corporations, as it is. But a generation from now it will probably appear to be as much a matter of conservative business policy as the present principle that free labor is much more profitable to all concerned than slave labor. Probably by that time, there will be new goals for radicals to strive for, in an extravagant way, and new classes of conservatives to resist, in an equally inert and unknowing way. The present advance is revolutionary, but only in the eyes of us who have seen it coming, and have welcomed or dreaded it according to our various temperaments and experiences.

One of the steps in the developments of modern business that have led, by no uncertain steps, toward the result now being realized, is the specialization in the nature of business which has for so much of the large properties of the country, carefully distinguished between management and ownership. The extreme socialist view has considered that the "workingmen" have contributed 100 per cent to the output of business, entirely ignoring the part played by the men who have earned the much scorned "profits."

On the other hand, the anti-socialist side has always assumed that the dispute was between a workman who contributed nothing to the business except his brawn, and an "owner" who contributed both the capital needed to operate the plant and the genius that was necessary to make it run. Of course neither side of this contention is true to the conditions of modern business. Business cannot be run with workmen alone, even if the government were to furnish the capital necessary for the operation, and any scheme of business that is to be profitable for the community and the nation must be satisfactory both to the workmen and to the management. It is a part of the proper evolution of business to see that each of these elements in the business gets its just share. But it is foolish for either side to assume that it does it all, and that the other side is entitled to nothing but minimum wages or is a parasite on the business.

The development of industry has often brought it about that the management and the ownership are almost entirely separated. That skilled management on which the "capitalists" argument will be based will be rewarded, then, not in dividends at all, but in higher salaries to officers and directors.

Of course free labor is better than slave labor, because it is a self respecting labor, and civilization is built, more than anything else on the relationship of self respecting men. But it is selfishly more profitable to the employer than slave labor because it is more nearly contented and more ambitious labor than that forced from slaves. Any step, then, that raises the attitude of the worker toward his employment, will be more profitable to the community and to the manager of the business. What could be simpler than to realize that a labor which has a voice in setting the details of its employment, which is intelligent about the daily results of its labor, will be more satisfied and more cooperative?

If the plan of the Midvale Steel corporation eliminates from the problem of this particular factory the problem of "who is boss," but gives to it an earnest and enthusiastic set of men who are satisfied that they are not being "done" by their directors and that they do not have to strike every once in so often in order to get their rights, it may be a most useful object lesson in the management of manufacturing plants where labor troubles have hitherto been a large share of the burden of the business.

SIR ARTHUR YAPP

SIR ARTHUR YAPP
is expected to be called from America to the head of the Y. M. C. A. for \$100,000,000. It is expected that he will remain in America several months in a semi-official capacity for the Y. M. C. A.

SCIENCE MONITOR
AND WAR DRIVE

Editor Republican—You open one of your editorials on Saturday by saying that "The Christian Science Monitor is a good paper," and I am sure that the Monitor needs to be a religion and to undermine scientific science. You would, I believe, have difficulty in establishing either of these intuitions as a fact.

Not a few newspapers publish Christian Science lectures. Certainly you would not assume therefore that they are seeking to promote Christian Science. They publish these lectures, as I understand it, because they regard them as having news value.

The Monitor has respect for medical practice. The fact that its owners and managers believe in a different health system is no reason why they should seek to discredit any other and they have no purpose to do so.

Not so. They would be seeking to discredit any other and they have no purpose to do so.

In a runaway accident near town yes-

terday afternoon, T. C. Brooks,

a rancher living on Clinton avenue, re-

ceived slight injuries for which he was

treated at the emergency hospital. He

was driving a team of horses at the time.

PERSONAL MENTION

Mr. and Mrs. Elias Knapp of Boston are

registered at the Fresno.

Sterling R. Tippin and Daniel Lench of

Alameda are registered at the Hughes.

Mr. and Mrs. L. L. Reed are stopping at

the Hughes from Lemoore.

Mr. and Mrs. Reaves, Eason and little

Doris, Redwood, Calif.,

Eason are registered at the Fresno hotel for a few days. To the

theatrical world, Mrs. Eason is known

as Jimmy Mayo, formerly Miss May Per-

kins of Fresno.

Mr. and Mrs. P. M. Mogenson and Elliot

Mogenson of Redlands are staying at the

Sequoia.

Mr. and Mrs. J. S. Rogers of Chowchilla

are registrants at the Lugo.

Mr. and Mrs. Van Bittner of San Fran-

cisco are registered at the Fresno.

Mr. and Mrs. M. L. Blythe of Visalia

registered at the Hughes yesterday.

Fred G. Whetstone is registered at the

Fresno from Helm.

Will F. Schmidt of Sacramento is reg-

istered at the Sequoia.

Mr. and Mrs. T. E. Sullivan are regis-

trants at the Fresno hotel from San Jose.

IN THE LODGE ROOM

Fresno Lodge No. 188 met in regular

assemblon Monday evening and conferred the

second degree. A committee is busy on

plans to participate in the big parade

next Friday evening, working in conjunc-

tion with the Central Association of

and the Benevolent Club in the interests

of the Library loan.

The Lodge members

will form or the march at Odd Fellows

hall at 7 p.m., with Canton Fresno No. 38

in full dress uniform. It is necessary,

however, to get a dispensation from head-

quarters to do so.

BORN

BRANDY—In Fresno, 2001 White avenue, September

25, 1918, to the wife of Juan Brandi, a daughter.

HIGH SCHOOL R. C.
SHOP A SUCCESS

The Fresno high school Red Cross book shop has been an absolute suc-

cess, according to Wm. Austin, the

manager. Austin stated yesterday that

up to date \$200 worth of books had

been sold; this sum being practically

entirely accomplished in the two days

that school has been open. He wishes

to raise at least \$300 this term, and as

the shop will be open throughout the

year, the desired \$600 will be easily at-

tained.

The shop was sold out yesterday of

all Freshman books, and more books of

any year are needed, especially his-

tories, algebras, geometries, Latin

books, English texts, etc.

Austin has appealed to senior grad-

uates to give their books to the shop

for the benefit of the Red Cross.

TO ENFORCE ORDER
FOR DANCE HALLS

fore the board said that the person in charge of the dance at Riverview had stated that he was not going to obey the order of the board. The sheriff after acquainting himself with the terms of the ordinance said that he was prepared to carry out the orders of the board immediately, and is the manager of the dance at Riverview contravened the order he would arrest him.

ATTENTION, ELKS

All members of No. 139 and visiting elk are requested to be at the lodge room Friday evening, Sept. 27, at 7 o'clock, to march in the Liberty Loan Parade.

SOCIETY

At the recent club held meeting of the Fresno Musical Club board of directors, it was decided to join the State Federation of Musical Clubs, and automatically, the local club becomes a member of the national organization.

To give the club recognition and also representation on the state board, Miss Bella T. Ritchie, president of the club, has been given the chairmanship of the state contest department, which is in line with student activities of all kinds.

The first student concert on the Frenzer series is slated for October 21, when the club presents Bizet and Guguleto soprano and baritone.

Other artists to follow are Eddie Brown, violinist; Trini De Laetee, consisting of George Barrere, flute; Carlos Falzido, harp; Paul Kefer, cello; and Lucy Gates, coloratura soprano; Josef Hoffman, pianist; Anna Case, lyric soprano; May Peterson, dramatic soprano, both of the Metropolitan staff; Louise Graeber, baritone.

The seat sale for subscribers opens Tuesday, October 1, at 10 a.m. in the office opposite the box office at the White theater. The public was to begin Wednesday, October 2, at 12 o'clock noon.

Mrs. George P. Beveridge and her daughter, Miss Anne Beveridge, are expected to return tonight from Sebastopol, where they have been spending several months. Mr. and Mrs. Robert Skelley and little daughter, who have been sojourning at the seaside resort, have gone on to San Francisco for a short stay, and are expected to make a short visit in Fresno en route to their home in Riverside.

A number of Fresno boys left yesterday for Berkley, where they will become members of the Students' Army Training Corps. In the group were Jack Patterson, Charles Branigan, Lloyd Brown, Ralph Brant, Emerson Fisher, Sidney Tupper, Claude Rowe, Lloyd Thomas, Lawrence Mainpin, Conrad Warner, Addison Baird, Francis Bartlett.

Mrs. Homer Rowell has returned from a very delightful week's visit in Alameda, where she was the guest of Mrs. Wyman Taylor.

Mrs. H. C. Tupper has returned from San Francisco, where she has been spending several weeks as the guest of Mrs. Roland Tupper.

Mr. and Mrs. Earl Washburn are down from the Bay cities for a visit with the latter's parents, Mrs. L. C. Sanborn at her home on N street. Mrs. Washburn was formerly Miss Ruth Sanborn before her marriage to the young army man, who is now stationed at the Presidio of San Francisco.

There will be a meeting of the St. Alphonsus auxiliary of the Red Cross in the church hall on Thursday afternoon, and a large attendance is requested.

Mrs. R. A. DeCrane has gone to San

Franisco to join Mr. DeCrane in a few days' sojourn. Later she will return with him to Palo Alto and remain there while he is stationed at Camp Fremont with the 62nd machine gun company.

The Community auxiliary of the Red Cross will hold no meeting this week because of lack of material, Fresno having completed her quota of Red Cross sewing for this month.

Walter Chappell left last night for Corvallis, Oregon, to become a member of the students' army training corps at the agricultural college.

An important meeting of St. James Guild of the Episcopal Pro-Cathedral will be held this afternoon at the new mission, corner of Van Ness and Alvarado avenues, at 2:30 o'clock. The presence of all members is desired, as the program of winter work is to be laid out, this to include war work and relief work.

Miss Elizabeth Irwin has returned from a two months' visit at her home in Kansas.

Mr. and Mrs. Al Braverman are at home after a very delightful outing of a month or so at Huntington Lake.

Miss Florence Lockwood is spending a few weeks in San Francisco with relatives.

Mrs. John Harter and her daughter, Miss Imogene Rowell, returned last night from Visalia, where they have been spending several weeks.

Mr. and Mrs. George Andrews, Mrs. Hollis Pierson and Chester Andrews have returned from a motor trip to Los Angeles and adjacent points.

Miss Margaret Clark has gone to San Francisco to be the guest of Mr. and Mrs. Leslie Clark and other relatives for several weeks.

Mrs. George H. Ball and son, Francis, have returned from a summer sojourn in Oakland.

Mr. and Mrs. G. B. Stockdale (Miss Jenny Dore) are establishing themselves in their new home on the corner of Third and Balch avenues.

Mr. and Mrs. Earl Washburn are down from the Bay cities for a visit with the latter's parents, Mrs. L. C. Sanborn at her home on N street. Mrs. Washburn was formerly Miss Ruth Sanborn before her marriage to the young army man, who is now stationed at the Presidio of San Francisco.

There will be a meeting of the St. Alphonsus auxiliary of the Red Cross in the church hall on Thursday afternoon, and a large attendance is requested.

Mrs. R. A. DeCrane has gone to San

St. John's New Echo Organ Is Dedicated by Clarence Eddy

Before an audience of hundreds of people, who crowded the auditorium and choir loft of St. John's Catholic church last night, and even stood for nearly two hours in the vestibule, the newly installed pipe organ was dedicated in a program of great beauty. The manual, which commanded the double instrument, was presided over by no less an artist than Clarence Eddy, the man who originated the instruments on this instrument.

The program included some mass music and in several numbers, the vested boys' choir assisted. The exhibition of the main organ and the newly installed echo organ was more than a promise of the fine music that will be featured at St. John's in the future. Antiphonal music will be a

CHANDLER ADVISOR ON FARM CLAIMS

Appointed by Secretary of Agriculture to Aid District Boards

W. F. Chandler, of Fresno, has been nominated agricultural advisor of the district draft board, which has jurisdiction in San Joaquin, Tulare and Southern California counties, outside of Los Angeles. The nomination was made by Clarence Ousley, acting secretary of agriculture, and is virtually equivalent to an appointment by the district board. Senator Chandler announced yesterday that he had accepted the nomination.

The agricultural advisor is not a member of the district board, but acts only in an advisory capacity and attends meetings upon request. The duties of the office will be during the classification period, chiefly within the next 60 or 90 days.

All claims for deferred classification on agricultural boards are passed upon by district boards. Local boards take no action whatever on these claims.

ARRESTED FOR GAMBLING.

Emery Priest, Bernie Thomas, Jack Credell and Andrew Cornett were arrested by Patrolman Boulton in Congdon last night on the charge of gambling.

They had been shooting craps. All were cited to appear in police court at 10 o'clock today.

CITY GRIEVES OVER DEATH OF H. GRAFF

Associates Meet and Express Sympathy to Family

The death of Hans Graff caused sorrow throughout the city yesterday. Everywhere that men met his long and useful life in Fresno and his part in the city's upbuilding was discussed and his death was regarded as a loss to the city as well as a personal loss to his friends and associates of thirty years.

No arrangements have yet been made for the funeral of the merchant, as during the entire day word was awaited from San Francisco. No word came and announcement of any arrangements was deferred until today.

Organizations of which Mr. Graff was a prominent member met and adopted resolutions. The first to meet were the directors of the Masonic Temple, of which Mr. Graff long had been president. Their resolutions follow:

At the meeting of the board of directors of the Masonic Temple Association, held this twenty-fourth day of September, 1918, the following resolution was unanimously adopted:

Whereas, The Supreme Architect of the Universe in His infinite wisdom has seen fit to summon from this earth to the celestial life above our brother, Hans Graff, president of the Masonic Temple Association;

Whereas, Our late brother has been an ardent, painstaking and conscientious member of this board since its creation; a beloved brother, a just, honorable, and upright business man, a patriotic American citizen, and a loving husband and father;

Therefore, Be it Resolved: That we, the directors and trustees of the different Masonic organizations of Fresno, tender to the family, the Masonic brotherhood and citizenship of Fresno at large, our sincere sympathy in their bereavement and their loss;

Be it further Resolved: That the flag on the Masonic temple be lowered at half-mast for the period of seven days, out of respect to the memory of our late brother;

And be it further Resolved: That a copy of this resolution be spread upon the minutes, and a copy sent to the bereaved family.

DIRECTORS OF MASONIC TEMPLE

By Harry C. Wilber, vice president. C. T. Cearley, secretary.

Merchant's Express Sorry

The Merchant's Association, of which Mr. Graff was for years a leading member, adopted the following resolutions:

Whereas, Almighty God in His wisdom has seen fit to call from our midst one of our most prominent and respected citizens, Mr. H. Graff, and we, the members of the Merchant's Association of Fresno, feel deeply the loss to the community and to his family,

Therefore, as a testimonial to his character and the esteem and affection in which he was held by his fellow citizens,

Be it Resolved, That the Merchant's Association of Fresno because of the many years of close business, social and personal acquaintances and friendship for Mr. H. Graff and because of his high personal integrity and civic honesty do with the greatest sincerity regret his untimely death. We feel that the loss weighs heavily on Fresno, as we have esteemed for Mr. Graff's work with us and we feel that he gave of the best that he had for his family, his friends and the uplift of our city on behalf of the Merchant's Association, and we extend to the city of Fresno and most especially to the bereaved family, our heartfelt sympathy and condolences.

Commerce Chamber Acts

The Fresno County Chamber of Commerce yesterday met and passed the following resolutions on the death of Mr. Graff:

Whereas, the relentless hand of death has called from among us one of our most prominent and respected citizens, Mr. H. Graff, and we, the members of the Fresno County Chamber of Commerce, feel deeply the loss in the community and to his family.

Therefore, as a memorial to his character, the esteem and affection in which he was held by his fellow citizens,

Be it Resolved, That the Fresno County Chamber of Commerce, because of the many years of close business, social and personal acquaintances and friendship for Mr. H. Graff and because of his high personal integrity and civic honesty do with the greatest sincerity regret his untimely departure from among us. We feel that the loss weighs heavily on Fresno, as we have esteemed for Mr. Graff's work with us and we feel that he gave of the best that he had for his family, his friends and the uplift of our city on behalf of the Chamber of Commerce of our county. We extend to the city of Fresno and most especially to the bereaved family, our heartfelt sympathy and condolences.

MUST REGISTER BY OCTOBER 5 TO BE ABLE TO VOTE

Is your name on the great register of your voting precinct?

Only those who have registered since January 1st of this year, from the precincts in which they now reside, will be allowed to vote at the general election on November 5, 1918.

Any citizen of the United States, 21 years of age, who on November 5 will have been in California one year and in the county ninety days and in the precinct thirty days, may register at once.

Before an audience of hundreds of people, who crowded the auditorium and choir loft of St. John's Catholic church last night, and even stood for nearly two hours in the vestibule, the newly installed pipe organ was dedicated in a program of great beauty. The manual, which commanded the double instrument, was presided over by no less an artist than Clarence Eddy, the man who originated the instruments on this instrument.

The program included some mass music and in several numbers, the vested boys' choir assisted. The exhibition of the main organ and the newly installed echo organ was more than a promise of the fine music that will be featured at St. John's in the future. Antiphonal music will be a

possibility there, and most impressive

is the Catholic service.

Among the highlights which Mr. Eddy gave last night, a "Fountain Reverie" by Percy E. Fletcher was conspicuously beautiful for its legato passages and descriptive type, and a new Battle Hymn of the Republic by Ralph Kinder was stirringly rendered.

A short talk on the importance of

music in the church service was given by Father Prendergast, of Madera, with congratulations to the Parish of St. John upon the newly acquired instrument.

A patriotic finale was given the pro-

gram in the "Star Spangled Banner,"

which church service had number-

ing 92 stars, was carried to the chancel

call by boy scouts in uniform, and the

voices were sung by the boy choir,

with the chorus by the audience.

The死 of Hans Graff caused

sorrow throughout the city yesterday.

Everywhere that men met his long

and useful life in Fresno and his part

in the city's upbuilding was discussed

and his death was regarded as a loss

to the city as well as a personal loss

CHOIRS AND CHORUSES TO LEAD IN SONG

"EVERYBODY SING!"
IS PLEDGE PARADE
SLOGAN

Arrangement of Musical
Organizations in Parade
Is Completed

Any Other Choruses in
City Are Urged to
Fall in Line

"Everybody sing!" That is the slogan for the great Pledge Parade that will move through Fresno streets Friday night in celebration of the American victory at St. Mihiel and the opening of the Fourth Liberty Loan drive.

Everybody may not have a torch or a lantern, but every man, woman and child in the great parade will have a voice. And if they are timid they will have all the encouragement that even the most shrinking violet could need. If the boys can sing as they go over the top in France, the parade committed tens everybody ought to have enough courage to sing as they march along these streets. And if you don't know how to sing, think you don't know how to sing? There will be enough other voices to drown yours out. But don't go along the street with your lips compressed.

"Open your mouths, open your lungs," is the plea of Chapman Reeks to every marcher in the big parade, "and if you are afraid nothing but a noise will come out of your mouth, let it come. Don't be a piker-sing! If you don't know the words, make sounds anyhow. Anybody can do that. Whatever you do, make your lips move. Play it through! If you are too timid to sing in the Fresno peaceful streets you've got too much of a coward to sing if you went over the top in France. Show the good American stuff you're made of—sing!"

Mrs. W. A. Fitzgerald, of the committee on "parade" singing, and W. E. Holden, secretary of the Musicians' Union and chairman of the committee on patriotic bands, last night reported that every band and singing organization in Fresno county would be in the big parade, playing and singing as they march.

Here are some of the organizations that will march:

Fresno Male Chorus.

Combined choirs of St. James Episcopal and First Congregational churches in vestments.

The vested choir of St. John's Catholic church.

The First Presbyterian church choir. Five choruses of school children of 500 voices each.

Musicians' Union Band.

Band of the 10th Cavalry.

Sun-Mild Band.

The Mole Chorus will march in the second division, directly behind the Masonic organizations. And they will form on Stanislaus street west of Van Ness. The vested choirs of St. James Episcopal church and the First Congregational church will march in the first section of Division Eight directly in front of the clergymen and churches of the city and the Y. M. C. A. contingent. They will form with their division on Merced street east of Van Ness.

St. John's Choirs to March

St. John's Catholic will march directly in front of the Knights of Columbus in the Fraternal Order division and will form on Stanislaus street west of Van Ness. To distribute the music in this section the Knights of Columbus have been urged to be patriotic enough to take in place to wear the rear of the second division in order that the entire division may be kept constantly singing.

To make the entire great marching song as much as possible model organizations have been distributed to cause harmonious results and every organization is urged to understand that the placing of them

Cross Field Station

SERGEANT FILLMORE,
One of Canada's "Immortal 33,000"
Who is Speaking for Liberty Loan in
Fresno County and Addressed Commercial Club Members Yesterday.

has been caused solely by the requirements. The Presbyterian church choir has been placed in front of the Y. W. C. A. section in the Third Division which forms on Stanislaus street east of Van Ness. The children's choruses which have been offered to the Liberty Loan parade by Capt. Jerome O. Cross, are to be singing wherever they are placed in the great pageant. Their location in the parade was announced yesterday. The assignment of the different bands will be made after a conference tomorrow.

After Sergeant Fillmore had spoken addresses were made by E. E. Manheim and Campaign Manager Fred B. Fox.

Subscription blanks were then passed around and \$56,800 was subscribed. Chairman W. O. Miles of the County Liberty Loan committee and Sergeant Fillmore later addressed another mass meeting at the Selma theater.

J. Bidegaray Appeals to Every Frenchman in Native Language

Frenchmen of Fresno were summoned in their own language yesterday by John Bidegaray, chairman of the committee on the participation of the French people in the pledge parade, to march in the body next Friday night behind the Stars and Stripes and the Tri-Color of France. Following is the appeal in French:

FRANCAIS ATTENTION!
Appelle a la colonie franconaise de la ville de Fresno, et de ses environs.

Le 27 Sept. prochain l'heure midi
commencez a nous joindre tous en-
sensible suivant le dejeuner triplique
dans la parade qui aura lieu ce jour
ouverture officielle quatrieme bataille de
la liberte.

Par intermediaire de nos soferirions
nous n'aidons pas seulement le pays que
nous habitons et aimons, nos sous-
criptions vont aussi direcctes au coeur
de notre mere patrie comme soutien
pour la defense et la victoire.

Francais donnez toujours
afin que la cloche sonne une fois de
plus ce deux son de LIBERTE. Et de-
tachez pour toujours le long anatoire,
et le remplacer par le democracie hu-
maine.

Membre du comite du quarante
de la liberte.

J. BIDEGARAY.
Translated, the appeal reads:

ATTENTION, FRENCHMEN!
Appeal to the French colony of the
city of Fresno and the surrounding
district.

On Friday evening next, September 27, you are called on to join in a body
to follow the Tri-color flag in the
parade which will be held that day for
the opening of the Fourth Liberty
Loan campaign.

Through the medium of our sub-
scriptions we will not only aid the
country in which we live, and which we
love, but our subscriptions will also
go direct to the heart of our mother-
land as a means of upholding its de-
fense and securing victory.

Frenchmen, Give! Give continuously,
in order that the bell shall peal
forth once more. Its sweet song of
LIBERTY. By so doing we will re-
move forever the chains of autocracy
and replace them with human de-
mocracy.

J. BIDEGARAY,
Member of the Fourth Liberty Loan
Committee.

All Registrants
Must Watch for
Questionnaires

Questionnaires are being mailed
each day to ten per cent of the
total number of draft registrants in
Fresno city and county between the
ages of 19 and 20, inclusive, and 32 and 36, inclusive.

Each registrant is allowed by
law seven days from the date of
the mailing of his questionnaire
to return it, properly filled out, to
the Exemption Board.

All registrants are urged to con-
sult attorneys named by the Bar
Association before attempting to
fill out their questionnaires. No
charge is made by these attorneys
for this service.

ROBBED OF LARGE SUM.
Tony Saito, 1111 G Street, com-
plained to the police last night that he
had been robbed of a \$50 Liberty bond,
\$60 worth of War Savings Stamps,
some clothing and bank of Italy deposit
book crediting him with \$600, making
a total of \$150.

The police are investigating the matter
by the war industries board. Men's
models only in 20 inch frames. Manu-
facture of racing and juvenile models
discontinued entirely.

NO MORE RACING
WHEELS TO BE HAD

SELMA OPENS LOAN
DRIVE BY PLEDGES
FOR \$56,800

Sergeant Fillmore of Can-
ada's "Immortal 33,000"
Thrills Hearers

W. O. Miles, E. E. Man-
heim and Fred B. Fox
Are Other Speakers

Selma began its climb over the top of the Fourth Liberty Loan quota last night when \$56,800 was pledged at one great mass meeting and Chairman H. L. Lohman announced that Selma expected to go over the top in two days and march through the streets of Fresno with banners flying and ready to announce its full allotment subscribed at the great opening mass meeting of the campaign.

The big subscription was made—a

subscription that carries Selma one-

sixth the distance to the top—after

Sergeant Harold Douglas Fillmore of

the 10th Battalion of the First Canadian

Infantry, of Canada's immortal

first 33,000, had stirred the meeting

in a high pitch of indignation when he

told them that he had lost his leg on a

field of battle, but was struck by a

shell deliberately directed at a Red

Cross field hospital where he lay

wounded.

"I was back in a barn used as a Red

Cross dressing station," said Sergeant

Fillmore, "I was wounded, but had three

German shells with me. A hydrite

shell struck the hospital—a poisoned

shell—and tore off my leg. It killed

the three Germans. It was terrible to

see the wounded shot to death and to

see not only the stretcher bearers

killed, but the wounded they were car-

rying. After the fight I actually saw,

I cannot tell you that we are in a war

against men as we know men. We are

fighting savages. After I arrived in

London I thought I was away from the

war, but I soon found I wasn't. On

an holiday afternoon, I heard the siren

for daylight air raid. When a

signal is sounded everyone stops

still. A bus stopped in the middle of

the street at once 150 women and

little children sought shelter under

the bus. It was struck by a bomb and

every woman and child in the throng

was either killed or injured."

After Sergeant Fillmore had spoken

addresses were made by E. E. Man-

heim and Campaign Manager Fred B.

Fox.

Subscription blanks were then

passed around and \$56,800 was sub-

scribed. Chairman W. O. Miles of the

County Liberty Loan committee and

Sergeant Fillmore later addressed another mass meeting at the Selma theater.

John T. Bullie, chairman of the

committee on the participation of

Great Britain in the Liberty Loan pa-

rade, has called on all people of Brit-

ish birth or descent to assemble at

clock Friday evening at Merced and

K streets.

PROCLAMATION

Fresno on Friday night will be
host to all the people of the county
at the greatest patriotic demonstra-
tion ever held in the San Joaquin
valley to celebrate at once the vic-
tory of our boys at St. Mihiel and
the opening of the Fourth Liberty
Loan drive.

Fresno has never failed to
answer any call made by the nation
since war in defense of human
rights was begun by free America
against the German Empire and its
shaded people. Nor has Fresno
city once failed.

Meeting as a people fully deter-
mined to again respond to the gov-
ernment's call to support the army
of Pledge—With as many millions
of dollars as may be necessary to
bring the war to a successful close,
the citizens of every city in the
county will march with our citizens
in the Pledge Parade on Friday
night and will take part with us in
the three mass meetings which will
follow the street Pageant.

I therefore call upon all the people
of Fresno to welcome the patriotic
people of the county with colors
flying and to this end I urge
every merchant and every resident
in the city to display the Stars and
Stripes on that day and keep the flag
constantly displayed during the
Fourth Liberty Loan drive.

Furthermore, I call upon all places
of amusement in the city and all
restaurants and other places of
business usually open at night to
close at 7 o'clock on Friday evening,
September 27, and remain closed until
Wednesday morning at 7 a.m. in
order that all their employees may take part
with the other citizens of the county in
demonstrations of red-blooded
Americanism that will long be re-
membered by the people of Fresno
county.

And I urge every citizen of Fresno
not barred from marching by age
or physical disability to take part in
the street pageant.

—WILLIAM TOOMEY, Mayor.

Can't Wait Club
of Eagles Order
Subscribes \$30,000

How many Eagles have refused to
wait until Friday night to subscribe
to fourth Liberty Loan bonds, Secretary Roy Marshall refused to say last
night, but he announced that the
Eagle is an impatient bird, as the
writer has discovered, and that the an-
nouncement which the Eagles already
were prepared to make at the big Lib-
erty Loan mass meeting would
astound, thrill and—well, he added,
"Comparisons are odious, but I can
say that all the Eagles are in the
wing and most of them are carrying
dolphins in their beaks."

Marshall said a few of the Eagles
flattered around a few city blocks yester-
day for a few minutes and brought back
\$30,000. To make a record, the following
letter was mailed as an additional reminder to all Eagles yester-
day:

Dear Brother: The Eagles Can't
Wait Club was organized in the office
of the secretary on September 18, by
the committee appointed to make necessary
arrangements to conduct the Fourth Liberty
Loan drive.

Furthermore, I call upon all places
of amusement in the city and all
restaurants and other places of
business usually open at night to
close at 7 o'clock on Friday evening,
September 27, and remain closed until
Wednesday morning at 7 a.m. in
order that all their employees may take part
with the other citizens of the county in
demonstrations of red-blooded
Americanism that will long be re-
membered by the people of Fresno
county.

And I urge every citizen of Fresno
not barred from marching by age
or physical disability to take part in
the street pageant.

—WILLIAM TOOMEY, Mayor.

Frances, the eagle, is the symbol of
the Can't Wait Club.

Frances is the symbol of the Can't Wait Club.

Azores Islands.
Ignatz Gieweksi, Cleveland, Ohio.
Axel Herman Larson, Red Oak, Ia.

Ledward Frank Winchell, a native of Fresno county, and for many years a resident of Fresno, died yesterday at his home, 1642 Fulton street, San Francisco. He was the son of the late Mr. and Mrs. Elisia C. Winchell, formerly of Fresno, the former being one of the early plotters, establishing the first law office in Fresno city, and was for many years a judge of the Superior Court.

"Lod" Winchell, as he was widely and familiarly called, was one of the more active and popular men of his day, identified with the business, social and fraternal interests. He was the first white child born at old Fort Miller on the San Joaquin river, near Milerton, a sort of "Civil War" times. His failing health of the last few years was brought about by an apoplectic stroke which led to his death Monday evening, September 23. He was married in 1883 to Miss Minnie Packard of Fresno, and besides the widow, leaves four children: Mrs. Lawrence B. Morton and Miss George Wenzell of San Francisco, Mrs. Ruth Stoen of Raymond, Cal., and Ledward Frank Winchell, Jr., United States Marine Corps, now with the American expeditionary forces in France. His brother is Lillehouse Alspach Winchell of Fresno, and a sister is Anna Cora Winchell of San Francisco. Mr. Winchell was a member of the Fresno Veteran Firemen's Association and an honorary member of the S. F. F. F. Association.

MUCH difficulty is being experienced in finding the right type of young fellows to act as playground leaders and teachers, said Raymond L. Quigley, superintendent of public playgrounds. He is now engaged in organizing a class to take up the work.

"Our force has been greatly depleted by enlistments in the army, as our eight-star service flag fully testifies. While we are training girls for the work, young men are also required to carry it on. Only husky, clean-cut young fellows, with no bad habits and the knack of getting along with younger children are wanted. Applicants should be 17 or 18 years old, at least. Instructions have been received from the government to keep the work going."

TO GIVE CIVIL TESTS AT P. O.

Seven civil service examinations have been announced by B. A. Dowland, secretary of the local board, including four during the first part of October and three at open dates. Further information may be obtained from the secretary at the post office. The following are the examinations: Mechanical engineer in experimental work (male), October 8; minor stenographer-typewriter, October 9; minor stenographer, October 9; minor typewriter, October 9. The following are at open dates: Library assistant (male and female); assistant purchaser of supplies (male); surveyor and transit man (male).

\$127.50 FOR 3 TON WAGON GEAR and Bed. Just a few left. W. J. O'Neill Co., Fresno.

The Human Machine Often Needs Lubricating

Any piece of machinery loses its efficiency if it is not properly lubricated. The human machine is sometimes deficient in lubrication—constipation is the result. Modern science has developed a splendid lubricating relief in the form of

Ameroil
—for Constipation

Ameroil is pure paraffin oil refined to the highest possible degree. Ameroil has no medicinal value—the system does not absorb it. Ameroil acts without stimulation—it is nothing more than a lubricant—a soothing oil that aids the natural functions.

News of the Sport World

GRAND CIRCUIT RESULTS

COLLEGES MAY WAIVE ELIGIBILITY RULE

COLUMBUS, O., Sept. 24.—A card that comprised the best day's racing so far of the present Grand Circuit was won by the largest crowd of the week. Of the four stakes on the program for a total distribution of \$13,000 but one was won in straight heats, even the 3-year-old colts in the Western Horsemen's Futurity, trotting some extra miles before a decision was reached.

Director J. tripped off three winning miles in the 2:32 Board of Directors equalling his record of 3:02.1 in the last heat, with Little Justice classing him out.

Ante Guy did an erratic first mile in the 2:32 Buckeye trot, finishing tenth because of a bad break at the first turn. She trotted to a new record for her in 2:04.1 in the second heat and won the third handily.

One of the best battles of the day was between The Toddler and Wilkes Brewer in the Chamber of Commerce 2:05 trot. The Toddler dropped the third heat to the Mare. She had him beaten in the second heat but broke the wire. The Toddler trotted the last half of the fourth and winning heat in 2:01 1-2 to shake off Wilkes Brewer.

The Western Horsemen's Futurity had David Guy as a strong favorite but Peter June took the second heat and the race. David Guy going to a break. The showing of Peter June was the best of the year. The first mile, trotted in 2:05 1-2 by David Guy, was a new record in this event.

EVERY PEACH PIT MUST BE SAVED

CAMP LEWIS, TACOMA, Wash.

Sept. 24.—Every mess in Camp Lewis was ordered today to save every peach stone, date seed and prune, cherry, apricot, plum and olive seed to be used in manufacture of gas masks. The order said the need of these ingredients is so urgent that no one pit should be wasted. Officers here said that the saving of fruit pits by the housewives in different western cities already is assuming large proportion and the response is much greater than was expected.

Many housewives are said to believe that only peach pits are wanted, but army officers call attention to the pits of other fruit as well.

Many officers with the service stripe given for six months or one year duty with the American forces in France are

arriving here to give the men in the 18th division special courses of instruction. These veterans for the most part refuse to talk of their experiences except to say they are anxious to get back into the fight.

WORKING HARD FOR PAN-AMERICAN UNION

PANAMA, Sept. 24.—Dr. Basilio Brum, the Uruguayan foreign minister, was the guest at a banquet at the presidential palace last night. In introducing Dr. Brum, Ernest Lefevre, foreign secretary of Panama, told of the benevolent friendship of the United States for Panama.

"I found in President Wilson," said Dr. Brum, "a statesman of a sympathy so universal that I shall devote my time henceforth with absolute assurance to Pan-American union, knowing that we of Latin-America can expect from the United States and its leaders the utmost happiness and a desire to leave or follow according as they are in the right."

News From Central California

KERN ALFALFA MEN JOIN ASSOCIATION

Plan Conserving of Moral and Physical Condition of Youth

BAKERSFIELD, Sept. 24.—Kern county alfalfa growers after listening to an address by Col. Harris Weinstock, the state farm director, endorsed the California alfalfa growers' plan for state-wide organization. George H. Peters, the president of the Kern County Farm Bureau, presided at the meeting. Among the alfalfa growers present were C. H. Tidwell and W. C. Hanawalt of McFarland; H. G. Hull, Vanee; H. S. Knight, Rio Bravo; Charles Smith, Rosedale; D. H. Bunn, A. H. Swain, of Rosedale, and H. C. Wallace, of Shafter.

The association was endorsed, and all members expressed a desire that all alfalfa growers of Kern county will help to support the movement and give their earnest co-operation to make it successful. The association does not plan to handle the alfalfa crop of 1918, but will begin with the 1919 crop. A letter was read from Dr. Elwood Mead, professor of rural institution, college of agriculture, of the University of California, whereby he stated in favor of organizing but as a particular plan for the organization of the alfalfa growers to be unfortunate in some respects. He told the growers that the prairie growers' co-operation associations had made \$350,000 profit over the year.

In forming an alfalfa growers' association, the producer will be in a better position to judge the value of his crop from year to year thus eliminating competition, spoke Colonel Weinstock, and a certain assured market would be provided. At the close of the session the following resolution was adopted:

"At a special meeting of the Farm Bureau Board of directors held in the office of the farm adviser of Kern county on September 23, 1918, it was resolved that the alfalfa growers' association of California, incorporation, of the men going into chaplaincy and Y. M. C. A. work, there will no doubt be a scarcity of men this year.

The ministers and their wives will be entertained on the Harvard plan, lodging and breakfast. The Chamber of Commerce and Board of Trade are assisting in securing entertainment.

METHODISTS WILL HOLD CONFERENCE

BAKERSFIELD, Sept. 24.—The Southern California Conference will meet in Bakersfield next Tuesday evening for its opening session, when a reception will be given at the First Methodist church to Bishop Thielker and members of the conference and their wives. There will be 450 in attendance, and on Thursday and Friday, the Laymen's Association will meet and will be attended by something like 400 people.

The Conference extends from Tulare on the north to the Mexican border, and consists of some 300 charges. Each year the bishop and the cabinet of district superintendents makes appointment of the preachers to their charge for the following year. Weinstock said that the alfalfa growers' association of the men going into chaplaincy and Y. M. C. A. work, there will no doubt be a scarcity of men this year.

Many visitors were in attendance, including R. A. Bowen of Kern, D. W. Jennings of McFarland and W. C. Caldwell of Shafter.

HOWLER BELGIAN RELIEF DRIVE

POWELL, Sept. 24.—The Howler Auxiliary A. B. C. is making a special effort to exceed the Spring drive for Belgian relief. The matter is in charge of Dr. W. T. Crawford, and the place for leaving the articles contributed is Room No. 1 in the First National Bank. Every home has many things that have been discarded and yet of worth to a people that have nothing. All are asked to look through old wardrobes and closets and attics and fetch articles in to help a people that are destitute. Everything that can be made wearable into garments and old shoes are wanted. The date of the drive is this week.

NEWMAN CHAPTER SHIPS GARMENTS

NEWMAN, Sept. 24.—The September shipment has been made by the Newman chapter of the Red Cross and consisted of 121 four-year-old petticoats for Belgian children, 57 men's shirts, 18 pajamas, and 82 chemises for women. Newman not only furnished his quota for last week, but assisted Patterson with its work, and expects to help him this week.

Amy Chalgren, who has been at the sanitarium for a week, has entirely recovered and has been removed to her grandparents' home near Turlock. Thurston Pierce is spending a few days here from San Francisco. Mrs. Mollie Holloman of Modesto visited in Newman a few days recently.

The Methodist Sunday school has had a contest on for the past year between the pupils of a trip to Palestine in their school work. The contest is finished, and the losing side will entertain the winners tomorrow evening at the church. The Sunday school and the parents of the pupils are invited.

The Rebekah lodge held its annual Orphans' Home Day recently, donating \$1000 last year. This year the Lodge has approved of unfinished work in Tulare county and that manufacturers have been instructed to furnish the necessary material with which to complete the work.

This means that work will be started on the Porterville-Woodville branch of the highway system as soon as a legal dispute over the right of way can be decided in the courts.

POWELL, Sept. 24.—A large barn containing alfalfa, farming tools, and harnesses on the M. T. Landau ranch one-half mile north of Fowler on the highway, burned at noon today. The building was not insured. The loss was total \$1000. The cause of the fire is unknown. Just a year ago the ranch house was burned, and a new one has just been completed.

GOVERNMENT TAKES CANNERY OUTPUT

PORTERVILLE, Sept. 24.—The plan of the Porterville Cannery company has been filed for war work and the management has been placed in the hands of the War Production Board for the time being. The new product for the season will be the canning of vegetables under the government act known as the Smith-Hughes law, which provides for a course permitting farm students to give half of their time to practical farming and similar amount to school work.

WILL DISPOSE OF PARSONAGE RIVERDALE, Sept. 24.—Yesterday the officials of the United Brethren church will set a date when they will sell the church parsonage that has been the minister's residence at Riverdale for the past fifteen years. The new parsonage, in Madera addition, will be ready for occupancy within the near future.

Mrs. J. L. Ostborn of Ovidale returned to her home after a two-weeks visit with her daughter, Mrs. Mark Miller.

Friends of Mrs. E. H. Byron will regret to hear of her serious illness of the past week.

Mrs. Emma B. de Camp arrived on Sunday from Los Angeles to be with her daughter, Miss Helen, who is a member of the high school faculty. Mrs. de Camp was a very ardent worker in the Red Cross last year.

REEDLEY SCHOOLS OPEN.

REEDLEY, Sept. 24.—The Reedley grammar schools opened yesterday with a total enrollment of 500 pupils. In one school and 200 in the other. It is expected that other pupils will enroll during the coming week. The following are the teachers for the year: George Edgecomb, supervising principal; Lincoln school, Mrs. Vinette Locker, principal; Miss Nettie Scott; Mrs. J. D. Hawes, Miss Pauline Hadley, Miss Frances Pope, Miss Florence Winter; Miss Helen Drath; and Miss Minna Luke, Washington school; Mrs. Willis W. Jones, principal; Miss Maynor Jones; Miss Shirley Tracy; Miss Lucy Pearl; Miss Edith Lagerstrom; Miss Alice Gandy; Miss Mary Robert; Mrs. Alice Miller; and Miss Dorothy Miller.

EYE GLASSES \$2.50

With eye test. Dr. Painter, 1538 1st St.

MOTOR FROM OHIO TO RESIDE IN KERN

SHAFTER, Sept. 24.—Mr. and Mrs. H. F. Manhold of Cleveland, Ohio, have bought the 40-acre tract just east of the H. H. Gray ranch. They have already started development, building and J. W. Wilson is drilling the well for them. Six months ago they toured this part of the country, running by the southern route and leaving by the north route, returning to Sacramento via the Lincoln highway, which was in terrible condition. The first real good roads they traversed were in California. Coming down the valley, they found no location which suited them as does Shafter, where they ended their journey in two weeks and four days after leaving their eastern home.

A modern bungalow of 3 rooms is to be erected by the King Lumber Co. on Central avenue, opposite the hotel; construction work starts immediately.

J. W. Board, recently of Kansas was here Sunday.

The school building has been moved west one mile, and the pupils will take up the studies next Monday. T. V. Little is installing an electric pumping plant motor for S. B. Little. Mr. Glover's motor was put out of action by Saturday's storm.

Mr. Winslow of Fellows was here Saturday arranging to buy whole milk for delivery in the west side oil fields.

MODESTO TO HAVE NEW FLOUR MILL

MODESTO, Sept. 24.—Construction of the first unit of a \$25,000 flour mill plant for J. A. and D. M. Johnston at a cost of \$6000 was begun yesterday at 703½ Eighth street. The first unit will have a capacity of 200 bags of feed, 200 bushels of corn and from 30 to 40 barrels of flour daily. As the mill develops, Johnston Brothers plan to erect an elevator with modern equipment for the handling of business.

AUTOIST IS INJURED

MADEIRA, Sept. 24.—L. S. Bowers

who was injured in an accident on the highway recently, was taken to his home in Fresno today. His automobile skidded, due to the rain, and tipped over, breaking one of the wheels and injuring Bowers in the hip. His wife, who was riding with him, was only slightly injured.

SCHOLARS AT SELMA WILL OPEN MONDAY

SELMA, Sept. 24.—Registration of first year high school students will be held at the high school building on Thursday. Upper class students will register all day Friday and before noon of Saturday. The term will commence Monday, September 30, with a faculty of seventeen teachers, with a probability that two more will be added to give courses in military training and vocational agriculture. The teachers and their assignments are as follows: A. D. Downey, principal; G. M. Kline, English and boys' athletics; B. L. Van Gilder, commercial branches; A. E. Rice, English; E. L. Maxwell, manual training; D. S. Burdick, sciences; Irene De Camp, modern languages and librarian; M. D. Hawking, history. The foregoing teachers were with the faculty last year, and the new teachers for this year and their assignments are as follows: Miss Prudence Brown succeeds Miss Stella Hutton in the home economics department. She formerly taught at Riverdale. Miss Ruth Grindall comes here from Palo Alto to teach free hand drawing and assist in the home economics department. Harry Woodham will have charge of agriculture and science, was formerly an assistant in the Agricultural College of Corvallis, Oregon; Miss Faye Kilpatrick, history and girls' athletics was connected with the Hughson high school last year. Miss Ruth Swift, who will instruct in modern languages, Latin and English, is returning after a leave of absence for one year. Mrs. Edna Barr Love is from Orange county, and will supervise the music of the high school and several grammar schools of the high school district. Miss Donella Cross, who will have mathematics, taught last year in Merced. Miss Alma Norden, who was an assistant at the University of California last year, will be in the departments of science and mathematics. The instructor for military training has not yet been definitely secured, and negotiations are pending for a man to take charge of vocational agriculture under the government act known as the Smith-Hughes law, which provides for a course permitting farm students to give half of their time to practical farming and similar amount to school work.

WINTER APPROACHES BELGIANS HAVE CLOTHES NEED

Season of Snow and Ice
Will Find Belgians
Poorly Clad
Unless American Red
Cross Can Provide
Equipment

In behalf of the hapless people of Belgium, the solicitations of warm clothing from the well stocked houses of Fresno is being made all during the week by the local Red Cross, with an extra urge on the request that the contributions be made as early in the week as possible. The reasons are obvious, as the packing of the donated clothes is a work of some length, and the winter is the watchword of the hour.

The climax of giving usually comes at the end of a drive, but the committee working on the drive are more than anxious that people realize the need for these clothes immediately. Contributions may be dubious, but surely not in the case of California vs. Belgium, or even limiting the territory of comparative areas to the San Joaquin valley, and the little persecuted country across the seas.

Gold factors oft-times make clear a condition. In the entire country of Belgium, which is the most densely populated in all Europe, there are 373 square miles, with an average of 1000 persons to each square mile. Fresno county claims 127 inhabitants to each of its 2950 square miles. The climate is colder than that of England, with rain, snow and frost between the months of October and April.

If California's children, or the little San Joaquin valley "insiders," must have nice warm clothes and strong boots, and overcoats and sweaters and caps, in a climate that is generally considered to be one, much more will the little Belgians need protection from the cold blasts of winter. And for that matter, the mothers of the little Belgians will also need protection, and to the remaining men of Belgium, who have so valiantly fought to protect home, honor and country, it will be splendid consolation to know that while they are "carrying on," the loved ones at home are being looked after by those who are Americans.

The needs themselves speak alone. The ships which carry to be given ship room to be transported across the seas must be worthy, and two qualifications make them worthy; they must be warm clothes and they must be in good, clean condition.

The central receiving depot is in the Cory building next the railroad station. It is a large room, with all suitable fire engine houses. It is preferable that all donations be made at the central station, and if not possible, at the substations. If that is not possible, a communication with the Red Cross headquarters in the Edgerly building, will bring an automobile to call for the donations. The committee is asking for more volunteer motorists to do this service.

The way is clear, and the need is urgent. Humanity is calling.

Arrivals Overseas

SIX MORE SOLDIERS FROM THE VALLEY TO THE RHINE.
Top—John O. Brane, Norman D. Harbison and Walter F. Dodd.
Bottom—Russell L. Long, Kegham Krikorian and Fred B. Brummert.

Fred B. Brummert has notified his wife of his safe arrival overseas. Mr. and Mrs. Brummert formerly resided at Colton where he was employed with the K. T. and G. company. He is in the 15th Ambulance corps. He entered the army in June, and was stationed at Camp Kearny before leaving for overseas.

Russell D. Long of Barstow has arrived overseas, according to word received by his parents. He was the first to enlist from Barstow colony. He enlisted in the Machine Gun company in April, 1917.

Walter F. Dodd of the 20th Aero service squadron has arrived in England, according to word received in Kerman.

Kegham Krikorian has arrived overseas, according to word received by his sister, Mrs. Agnes Antoyan, 714

drives of chemical No. 3 of the Fresno fire department.

Fresno to Have Big Navy Band For Fair Week

Harris, Candidate, Declines to Act as Loan Chairman

A navy band of fifty pieces or more will come down from Mare Island for the Fresno District Fair next week. Definite announcement that the band would appear here was received yesterday by C. C. Eberhardt, secretary of the Fresno District Fair Association, in a telegram from the commandant of the Mare Island navy yard.

Russell Union, county purchasing agent, left for Mare Island last night to make arrangements for the exact number of men to be brought here and to arrange transportation and other matters.

The navy band was a big feature of the State Fair and aroused patriotic feeling to a high pitch.

The band will arrive here next Wednesday, Fresno Day at the Fair, and will remain here over Saturday.

In addition to providing music at the fair, it will also take an active part in boosting Fresno's Liberty loan campaign.

LOCAL PASTOR TALKS AT CAMP

Rev. M. G. Papazian, pastor of the Pigrim Armenian Congregational church, returned last night from Camp Fremont, where he had been invited to speak to the soldiers. Rev. Papazian spoke before large audiences of soldiers on patriotic subjects.

This is a good time to buy "that extra chair" you have been needing.

More Belgian Proteges for Fresno High?

Under the jurisdiction of T. J. Pentfield, head of the English department of the Fresno high school, and with the help of a committee of students, the adopted Belgian baby of the high school has been looked after for about three months, and tonight there will be a meeting of the committee of parents to ascertain the fate of the already adopted child and perhaps that of several others.

Through the adoption, the child was taken from the "war-torn country" into Holland to be reared. Seventy dollars were raised last term for the support of the high school protege, ten dollars being sent each month.

The committee, through Dorothea Kearns who was the originator of the adoption, is trying to establish correspondence with the child, if old enough, with its guardians. Information regarding the child has been scarce. The committee, however, has decided that they want a girl.

The adoption of other Belgian babies is now contemplated, and the committee is busy laying plans for the raising of more money. Novel money raising devices have been suggested, including a nickel-in-the-slot-and-sell-the-Belgian-Baby's-picture idea.

The committee consists of Dorothea Kearns, Claude Minard, Mary Elizabeth Fox, Helen Gray, Helen Thomas, and Lawrence Hall.

JEROME O. CROSS ADDRESSES W. O. W.

"Americanization" was the subject of an address by Jerome O. Cross, city superintendent of schools, at a meeting of the Woodmen of the World, held in the Woodmen hall last night. Al Sutherland introduced the speaker.

Mr. Cross said that the change in the meaning of the word was significant of the change of feeling. Formerly, he said, it conveyed the meaning of boycott, but now it means help, sympathy, understanding, and largeness of view. In general Americanization implies the adoption of a common language for the entire nation and the development of a desire of the people to unite in common citizenship under one flag; the combating anti-American propaganda, and the stamping out of sedition and disloyalty wherever found.

He asserted that the children of the disorder and unrest found among the Negroes needed to be analyzed and studied, and it was the purpose of Americanization to find the real cause of the disease and have it cured. He urged that racial prejudices and discriminations should be done away with, and that the alien should be shown the value of American ideals and institutions. It should be the aim of every agency, he declared, to make it his business to see that every alien is made a good American citizen.

As a means towards this end he said that the schools were the most potent force for inculcating American principles. Fresno had provided evening and citizenship schools, but these had been poorly patronized. He said that the knowledge of English was absolutely necessary in the industries, and employers, he said, should insist that the employees use it. He also urged that it would not do to cheapen American citizenship. The alien should be impressed that it is an honor.

W. B. Harris was chairman of the Fresno county organization of Four Minute Men. He resigned, and all other candidates, who are members of this organization, have been put on the ballot until after the general election. This was done many weeks before the primary election.

After the primary he wrote to the State Council of Defense, pointing out that he was the sole nominee and asking if they would endorse his resumption of war work. The Council of Defense replied that a rule had been laid down and that it wished to maintain it as a rigid rule, regardless of a man's status as a candidate. One relaxation, the Council of Defense said, would very likely be followed by other relaxations and the whole order would be thrown into confusion.

Harris also wrote to the Council of Defense asking if there was any objection to participation by candidates in war work, where each had no objection to the activity of the other, and a similar reply was received.

Throughout the state, practically all candidates for political offices are now refraining from participation in war work activities.

PETITION AGAINST MOTOR ORDINANCE

Petitions against ordinance No. 151, recently passed by the board of supervisors following the recommendation of the state railroad commission, were heard by the supervisors at their meeting yesterday.

The ordinance provides for the supervision and regulation of motor vehicles parking for hire within the county and provides that each vehicle shall be licensed, and such license shall carry a provision that each licensee shall file a bond with the board for the sum of \$10,000, or a policy in an insurance company for a total liability of \$10,000, and other provisions for the safeguarding of the public and public property.

On behalf of the petitioners, E. V. Williams appeared and claimed that the board had no legal right to exact any bond or any insurance policy. He said that while it was within the power of the board to do this, it was without their power to do so, as a penal clause. He alleged that the board in passing the ordinance had contravened the state law regarding common carriers.

The members of the board decided that as the ordinance is now not in effect that Mr. Williams should confer with the district attorney on the points raised by the petitioners, and they would be guided by the advice of the district attorney.

TO ELECT Y. M. DIRECTORS.

Announcement is made that the annual meeting and election of the board of directors of the Fresno T. M. C. A. will be held on the evening of October 1 at 8 o'clock.
